

## EX-GOV. JENNINGS PRAISES ROOSEVELT

In the important speeches before the Bankers' association meeting at Washington, D. C., Wednesday, the prevailing sentiment was for a more flexible currency.

The convention enthusiastically adopted a resolution thanking President Roosevelt for bringing about peace between Japan and Russia. The resolution was seconded by ex-Governor Jennings, of Florida, whose words moved the hearty applause of the convention. "We love peace," he said "and we love the President. I would not feel satisfied to remain silent and hear words of patriotism that thrill all Americans without rising here to second this resolution and move for its adoption."

### To be Tried in November.

The trial of Greene and Gaynor, at Savannah, charged with conspiracy in connection with former captain O. M. Carter, to defraud the Government in the carrying out of contracts for the improvement of Savannah harbor, and who have been turned over to the American government by the Canadian government after a fight of several years, will probably take place during November term of the United States court for the Southern District of Georgia, Judge Emory Spear, presiding.

### THE TOOTHBRUSH TREE.

An Accommodating Little Plant That Grows Only In Jamaica.

The toothbrush was brown, brown alike in handle and bristles, and its shape was uncouth.

"It is a homemade article," said its owner. "It grew on a little tree, a toothbrush tree. They have a toothbrush tree in Jamaica. As we go out and pluck a peach or a pear, so the Jamaican goes out and plucks a toothbrush.

"Literally, of course, he doesn't pluck a toothbrush. He cuts off a twig and ravel out one end into bristles. The wood, you see, is somewhat saponaceous, like slippery elm, and it has an aromatic flavor like dentifrice. It makes a toothbrush of good quality.

"The bark of this singular tree is often ground into tooth powder. Here is a box of the ground bark. It smells good, doesn't it? Though it makes no lather, it keeps the teeth very white.

"Jamaica is undoubtedly the only country in the world where you can go out and pluck not only your toothbrush, but your dentifrice, from a tree."—Chicago Chronicle.
